

Robert J. DeSalvo Papers

Business Combinations in the Cosmetic and Pharmaceutical Industries 1944 - 1990

Collection #107

Abstract

Robert J. DeSalvo's research focused on business combinations (acquisitions, mergers, and joint ventures in the cosmetic and pharmaceutical industries. This topic was the basis for his master's thesis in pharmacy administration at the University of Pittsburgh and continued as a life-long interest.

This collection consists of two series of notebooks that Dr. DeSalvo developed to record relevant business combinations. The first series records acquisitions, proposed acquisitions, mergers, and joint ventures for the period of 1944 –1990 in an alphabetical arrangement. The information on these entries is cumulative so that the history of an organization is collected in one place.

The second series of notebooks is arranged in chronological blocks. The information is arranged alphabetically by the name of the acquirer. The name of the acquired (merged), type of combination (acquisition, proposed acquisition, joint venture) and the date is also provided. The information is cross-referenced between the two series so that the researcher can approach the information by the name of the parent company or chronologically.

Dr. DeSalvo used this resource for many of his publications as well as his master's thesis. A copy of these publications and his thesis make up the remainder of the collection.

Donor

Gift of Barbara DeSalvo, 2000

Biography

Robert James DeSalvo was born on July 20, 1933 in Toledo, OH. He died on January 23, 1993 in Cincinnati, OH.

DeSalvo graduated from high school in Toledo and attended pharmacy school at the University of Toledo where he received his B.S. in pharmacy in 1956. From 1956 until 1958 he served with the U.S. Army. Upon his honorable discharge he worked in retail pharmacies in the Toledo area.

DeSalvo enrolled in graduate school at the University of Pittsburgh. He earned a master in pharmaceutical economics in 1965. The title of his master's thesis was: *The Nature of Business Combinations of the Drug and Cosmetic Industries from October 1, 1944 to September 30, 1964*. In 1967 he completed his PhD in pharmaceutical economics also at the University of Pittsburgh. The title of his PhD dissertation was: *A Survey of Prescription Drug Programs Available to Labor Union Members and the Effects of a Labor Union Drug Program on Community Pharmacies in Selected Areas*.

During his graduate school period, DeSalvo served as an instructor in pharmaceutical economics at the University of Pittsburgh. In 1967 he joined the School of Pharmacy and Pharmacal Sciences, Purdue University as an assistant professor and was promoted to associate professor in 1971. In 1974, DeSalvo joined the faculty at the University of Cincinnati College of Pharmacy as an associate professor and assistant dean. In 1985 he served as the acting dean of the College.

DeSalvo was a member of a number of professional organizations, including the American Pharmaceutical Association The American Association of Colleges of Pharmacy, the Ohio State Pharmaceutical Association. He was also a member of the pharmacy honorary society, Rho Chi.

As an administrator at the University of Cincinnati Robert DeSalvo was responsible for coordination of the undergraduate program, recruitment and admissions, alumni affairs and coordination of professional continuing education. Later he added the graduate programs to his area of responsibility.

He was the chief author and editor of Cincinnati Pharmacist, the publication of the alumni association. He was also responsible for the reestablishment of the modern alumni association for the school.

The College named its distinguished alumni award in his honor in recognition of his contributions with students and alumni.
