Science, history, and nature enthusiasts, they admired the old and new photography exhibited here and described the Lloyd as "a dream come true."

## Ghosts, Goblins...and Plants?

Learning about plants can be fascinating, informative, and sometimes a little spooky. This Halloween, the Lloyd is your resource for the dangerous and downright deadly details of plants from history and around the world. Learn what not to plant in your garden, or dig into a murder mystery from the past featuring plants.
