

This February, the Lloyd joins with partners across town and around the nation to delve further into the health benefits of trees. Whether it's connecting with scientists from around the country or with conservation efforts close to home, we keep the focus on trees and their role in everything from plant research to the environment. Not to forget our rich environmental history, be among to first to view a significant addition to our collection, the first published book on American trees.

Drug Discoveries from Plant Research

When: Wednesday, February 15, 7-8 p.m. Where: Virtual Program

Don't miss a one-time opportunity to attend this program featuring leaders in medicinal plant research. Dr. Barry O'Keefe of the Center for Cancer Research at the National Cancer Institute will moderate presentations with Dr.

Nicholas Oberlies, Patricia A. Sullivan Distinguished Professor of Chemistry at University of North Carolina Greensboro, and Dr. Cassandra Quave, Curator of the Herbarium and Associate Professor of Dermatology and Human Health at Emory University. This program will be presented to the virtual audience the evening of February 15 and not available online after that. **Registration required**.

Forest Conservation at the Edge of Appalachia

When: Thursday, February 23, 7-8 p.m.

Where: Lloyd Library

Join Mike Hall, Appalachian Forest Manager of The Nature Conservancy of Ohio, for a timely and engaging discussion of conservation at the Richard and Lucile Durrell Edge of Appalachia Preserve System of Adams County, Ohio. The Nature Conservancy not only conserves land to

protect endangered species but works to restore forests. Learn more about efforts to support the conservation and research of the wildlife in the forests and prairies of Ohio. **Registration required**.

Register for this in-person event

When: Saturday, February 25, 8 a.m.-noon Where: Fort Thomas Tower Park Mess Hall

Now in its tenth year, Taking Root in Cincinnati presents its annual <u>Great</u> <u>Tree Summit</u>. Join speakers from The Ohio State University Extension, Fort Thomas Forest Conservancy, and the Cincinnati Zoo as they discuss local initiatives addressing the tree crisis. Catch a presentation by Lloyd Librarian and co-curator of our current exhibition *Sylvan Roots*, Betsy Kruthoffer, and meet with tree experts and tree lovers for a new perspective on trees at this free event.

Rare Book Finally at Lloyd

Over a hundred years ago, Lloyd Library co-founder

Curtis Gates Lloyd searched for *Arbustrum Americanum*, the first book on American trees and shrubs published in the United States. Written in 1785 by Humphry Marshall, a nurseryman and cousin of botanist and explorer John Bartram, this book never made it to the Lloyd--until 2021, when we found and acquired a copy to honor Curtis Lloyd's wishes. See this and many other treasures in the <u>Sylvan Roots</u> exhibition.

Visit our Current Exhibition, Sylvan Roots

Lloyd Library & Museum | 513-721-3707 | <u>contact@lloydlibrary.org</u> 917 Plum St. Cincinnati, OH 45202 Hours: 9:00-4:00, Monday through Friday and 3rd Saturday of the month <u>www.lloydlibrary.org</u>

Stay Connected

The Lloyd Library will be closed February 20 in observance of Presidents' Day
