## Welcome New Lloyd Fellow

The Lloyd welcomes [Brad Bolman](#), our current Curtis Gates Lloyd Fellow and recently a Postdoctoral Fellow at the Institute on the Formation of Knowledge at the University of Chicago. His research at the Lloyd will support his second book, *The Decomposition Book: Knowledge, Life, and Fungi*. Drawing heavily on the Curtis Gates Lloyd papers, Bolman will discuss how a separate fungal kingdom resulted from centuries-long debates about what living things are. Interested in applying for the

upcoming Lloyd Fellowship or Artist-in-Residence program? [Click here for details.](#)

## Explore Fungi from Past to Present

While our new exhibition *A Foray into Fungi* features works dating back centuries, it's a good time to remind readers that the Lloyd's collections are constantly growing with new materials as well. Recent books and periodicals hot off the press join historical works on fungi and related topics. On your next visit, check out our newest picks on display in the reading room.
